

Email subject: ISHAM Asia 2021 is going virtual – Register Now!

Dear members,

The Korean Society of Infectious Diseases (KSID) is pleased to partner with the International Society for Human and Animal Mycology (ISHAM), to support our members participation in the first ISHAM Asia Congress, which will be held virtually on August 6-8, 2021.

ISHAM Asia 2021 is organized jointly by ISHAM and ISHAM's Asia Fungal Working Group. With an assembly of the world's leading experts from 18 countries, a high-impact program and industry exhibition hosted on an interactive online platform, the congress will put state-of-the-art updates in medical mycology into an Asia-Pacific context and provide a unique international arena for scientific exchange.

Our virtual congress platform enables international professionals to network around topics of interest and listen to speakers virtually. You will get the chance to connect and engage with your peers real-time without the need to travel. More details can be found in the attached flyer.

Register now to avoid disappointment!

Register here: <http://www.ishamasia.com/registration>

Warmest regards,

ISHAM Asia 2021 Secretariat
